Smolenice Castle – Slovakia -  
October 2<sup>nd</sup> - 4<sup>th</sup> 2018

### ***October 2018 YCN Workshop Grant***

The purpose of this grant awarded by YCN with the financial support of the JECS Trust is to help European Master students to participate to the Workshop organized by The Young Ceramists Network from 2<sup>nd</sup> to 4<sup>th</sup> October 2018 in Smolenice Castle (Slovakia).

The Workshop is designed for ceramic and glass students and young professionals. The workshop/Networking Event will cover topics such as processing, sintering and characterization of ceramics for various application fields.

Participation to the workshop is **free of charge**.

#### **Support**

A grant of 500 € maximum will be awarded to the selected master students to cover travel expenses. 50% of the support will be paid to the students before the travel and the remaining 50% will be paid after the Workshop – reimbursement on basis of real travelling expenses.

#### **Rules**

The candidate to benefit from this support must be registered as a master student in a European University located in a member national ceramic society and should be personally a member of the society (priority – if the student is not a member, his/her supervisor must be a member). He/she will submit an application including a brief description of the field of activity he/she is working on and the reasons why he or she wishes to participate in the Workshop (i.e. relationship with the field of activity). **Up to 20 grants could be awarded.** In the case where too many candidatures are received compared with the allowed budget, the YCN selection committee will give priority to students whose fields of activity are most closely related to the topics of the Workshop.

#### **Publication**

The Master student will make a commitment to submit at least 1 paper on his/her present subject to the Journal of the European Ceramic Society.
