PRESENTED BY

THE AUSTRALIAN CERAMIC SOCIETY

18–22 July 2027
Brisbane, Australia

17TH PACIFIC RIM CONFERENCE ON CERAMIC AND GLASS TECHNOLOGY

Richard Bowman, Conference Chair - president@ceramics.org.au
Pramod Koshy, Technical Chair - koshy@unsw.edu.au

SYMPOSIUM THEMES

- Geopolymers and Cements
- Ceramic Matrix Composites
- Refractories and Conventional Ceramics
- Polymer Derived Ceramics
- Environmental and Thermal Barrier Coatings
- AI Approaches in Materials and Process Engineering
- Modelling and Design of Ceramic Systems
- Interfaces and Grain Boundary Effects
- Ceramic and Mineral Characterisation
- Advances in Powder Processing and Manufacturing
- Additive Manufacturing of Ceramics
- Nanostructured Ceramics and Glasses
- Ceramics for Nuclear Applications
- Ceramics for Energy Storage
- Ceramics for Green Energy Generation
- Ceramics for Extreme Environments
- Ceramics for Optical and Luminescent Applications
- Ceramics for Biomedical Applications
- Ceramics for Electronic and Magnetic Applications
