

HONORARY FELLOWS

JINGYANG WANG CHINA

Dr. Jingyang Wang is the Vice Director of Liaoning Academy of Materials, the Distinguished Professor of Chinese Academy of Sciences (CAS), and Head of the Advanced Ceramics and Composites Division at the Shenyang National Laboratory for Materials Science and the Institute of Metal Research, CAS, China.

His research field is focused on fundamental exploration and technological developments of ceramics and composites for extreme environment applications. He has authored/co-authored over 250 journal papers (WoS H-index factor 54), holds 44 registered patents, and has delivered more than 70 plenary/keynote/invited lectures in international conferences.

He received many prestigious recognitions and awards, represented by Academician of World Academy of Ceramics (WAC), Fellow of The American Ceramic Society (ACerS), Fellow of ASM International, Acta Materialia Silver Medal Award, ACerS ECD Bridge Building Award, and National Leading Talent for Science and Technology Innovation (China), National Leading Talent of Young and Middle-aged Scientists (China), National/Ministry Science and Technology Progress Award (China, 2011/2010) and Liaoning Natural Sciences Award (China).

He serves/served as a Member of International Advisory Board of the European Ceramic Society, Director of ACerS, Nominating Committee Member of ACerS, Chair of Engineering Ceramics Division of ACerS, and President of WAC Forum Committee.
